- Very good with Flask

DEVELOPMENT  
LANGUAGES

- Very good with Ruby
- Very good with Python
- Very good with SQL(with DDL)
- Quite good with GO(golang)
- Very good with Elixir
- Very good with Java
- Very good with javascript, jquery
- Very good with angular(6) (typescript)

## DATABASES

- Very good with MySQL
- Very good with Postgres
- Very good with MongoDB
- Quite good with Hive QL
- Quite good with Delta Lake

## DATA ENGINEERING

- Quite good with Apache Spark
- Quite good with Apache Databricks
- Quite good with Apache Flink
- Quite good with Apache Kafka
- Quite good with Apache AirFlow
- Quite good with Apache Beam
- Quite good with AWS Glue

CLOUD PLATFORMS AND  
TOOLS

- Quite good with(developer certificate) AWS

## ADDITIONAL TOOLS

- Very good with HTML, HAML, SLIM
- Very good with GIT
- Very good with Docker
- Very good with K8s
- Very good with Linux

PENETRATION TESTING  
TOOLS

- Very good with Fuzz
- Very good with Metasploit
- Very good with BurpSuite
- Very good with WireShark
- Very good with Gobuster
- Very good with nmap

## TESTING TOOLS

- Very good with
- Very good with
- Very good with

Capybara  
ExUnit  
RSpec

## PENETRATION TESTING

- Moderate level
- Moderate level
- Moderate level
- Moderate level

XSS attacks  
SQL injection  
Reverse engineering  
Local/remote file injection

## SEMINARIES

- CCNA Routing and Switching: Introduction to Networks diploma
- Discover Inner Leader
- Employee or employer
- Startup weekend Liepāja

DEVELOPMENT  
ARCHITECTURES

- REST api
- MVC
- Cloud
- OOP
- Microservices
